THE NEVADA SENATORSHIP.

New York, Dec. 20.—The Herald's Washington correspondent telegraphs: Ex-Senator Stewart of Nevada, who will re-enter the Senate at the close of this Congress, is well remembered in Washington. Some years ago he invested heavily in real estate in the vicinity of Dupont Circle, and with a view of improving his property, erected an enormous dwelling, which has since been known as "Stewart's Polly." The house contains fifty rooms, and it costs \$3,500 a year to heat it. It is too large for private purposes and too small for a hotel, while excessive rent prevents it being turned into a boarding-house. It is at present occupied by the Chinese Legation. Senator Stewart gave it up because he said he was too poor to live in it. Within the past four years, his property in that section has advanced so enormously in value that this, together with his mining investments on the Pacific Coast, has increased his fortune at least a million of dollars. It was expected that the fight for the control of the Nevada Legislature this Winter would be hotly contested. That it was not is due to the cleverness of the Stewart crowd, who declared that Stewart would spend a million to secure the election. Money is such an important factor in Nevada politics that its use in determining the election excites no comment. Sharon made no concealment of the fact that he spent \$500,000 to secure the election of the Legislature in his interest. The Senatorial candidate in the recent election, it is said, expended only \$200,000.

A TEST OF SINCERITY.

The Winnemucca Silver State remarks: A synopsis of the report of Frank Bell, Warden of the State Prison, is printed in another column. It shows that the Prison is economically managed, and that the expenses of the institution are being steadily reduced. It also, taken in connection with the fact that no complaints of poor or scant fare have been made by the prisoners, conclusively proves that the State has the right man at the head of the Prison.

As the selection of a Prison Warden for the ensuing term of two years devolves upon the Legislature, which is to meet at Carson next month, the sincerity of the party which will be in the ascendancy in that body on civil service reform will then be tested. If the professions of the majority amount to anything more than idle talk, the present incumbent, who has proved himself to be a faithful and efficient officer, will be unanimously elected. It has been proclaimed, however, by the ultra-Stewart organs, that the Legislature would wreak its vengeance on General Powning for his opposition to Stewart, by supplanting Warden Bell, who happens to be his brother-in-law, but it is hoped, for the honor of the State, that the Legislature will not demean itself by removing a capable official because he happens to be a relative of a person who offended the political bosses by exercising a right which is guaranteed to every American citizen.

Oriental travelers tell us that it is the custom in China to decapitate or imprison, according to the gravity of the case, not only those who give offense to the powers that be, but their innocent relatives, but it is hoped that Nevada politicians have not sunk quite low enough to adopt this Chinese method.

HOME RULE.—The defeated Reno and Virginia folks still harp on "home rule" and claim that no one who has not held a consecutive residence for 15 years is eligible for the U. S. Senate, and still they abuse the C. P. R. R. and the V. & T. R. R. for exercising control in Legislative and Congressional affairs. Surely they cannot argue that either corporations are of foreign origin as far as their construction, taxpaying and such matters are concerned. But the whole thing is such a contemptible humbug that ordinary language fails to express its folly. W. M. Stewart will be elected because he is the most proper man of any yet spoken of and the longer the time intervening before the Legislative Joint Convention the surer his election becomes.—Carson Tribune.

The Nebraska Republicans insist that there shall be no caucus of the Legislature on the election of a United States Senator. Let us have none in Nevada either.—White Pine News.

Joe Jefferson still has a spontaneous flow of humor.

FORT HALLECK MILITARY RESERVATION.

The Land to be Sold at Public Auction.

By order of President Cleveland, dated October 11th, the Fort Halleck Reservation was abandoned as a military post and transferred to the Department of the Interior. It has been decided by Secretary Lamar to have the same surveyed, appraised and sold under the provisions of an Act of Congress of July 5, 1884, and U. S. Surveyor General Powning has received instructions from Commissioner Sparks to invite proposals for said survey, which have been prepared, and are as follows:

U. S. SURVEYOR GENERAL'S OFFICE, RENO, NEV., Dec. 17, 1886.

Proposals will be received at this office, for thirty days from date, for the survey of the late Fort Halleck Military Reservation. The reservation consists of three parts, viz: The military reservation proper, located in T. 34 N., E. 50 E.; the timber reservation, directly to the south of it, and the hay reservation, located in T. 35 N., E. 58 E.

The lines to be surveyed will consist of the re-establishment of the boundaries of the reservation, if found necessary, and the subdivision of the reservation in the same manner as public lands according to surveying laws of United States. The contract for the above work will be let subject to the approval of the Commissioner of the General Land Office, to the lowest responsible bidder (being a practical and reliable surveyor) at rates not exceeding the legal rates for section and township lines, and not to exceed \$5 per mile for reservation boundary lines. The right to reject any and all bids is hereby reserved.

After the reservation has been surveyed, and the surveys have been approved by the Commissioner of the General Land Office, the land will be sold according to the provisions of the Act of Congress heretofore referred to, which are as follows: The Secretary of the Interior shall appoint three competent and disinterested men who shall, after being duly sworn to impartiality and faithfully execute the trust reposed in them, appraise the said lands, subdivisions and tracts, and each of them, and then report their proceedings to the Secretary for his action thereon. If such appraisement be disapproved the Secretary shall again cause said lands to be appraised as before provided; and when the appraisement has been approved, he shall cause the said lands to be sold at public sale, to the highest bidder for cash, at not less than the appraised value thereof, nor less than one dollar and twenty-five cents per acre, first having given not less than sixty days' public notice of the time, place and terms of sale, immediately prior to such sale, by publication in at least two papers having a general circulation in the county or section of country where the land to be sold is situated; and any lands or subdivisions remaining unsold may be re-offered for sale at any subsequent time in the same manner, at the discretion of the Secretary of the Interior; and if not sold at such second offering, for want of bidders, then the Secretary may sell the same at private sale for cash, at not less than the appraised value, nor less than one dollar and twenty-five cents per acre; provided, that any settler who was in actual occupation of any portion of the reservation prior to the location of such reservation, or settled thereon prior to January 1, 1884, in good faith for the purpose of securing a home and of entering the same under the general laws, and has continued in such occupation up to the present time, and is by law entitled to make a homestead entry shall be entitled to enter the land so occupied, not exceeding 160 acres in one body according to the Government surveys and subdivisions; provided further, that said land were subject to entry at time of their withdrawal. Any buildings or other property which may be situated within the bounds of the reservation shall be sold in same manner as hereinbefore described for sales of land, and they may be sold at the discretion of the Secretary either with or without the land upon which such buildings or property are situated.

The Carson Tribune says: Everyone who stops over at Reno and takes a breakfast or supper at the Depot Hotel, leaves the house feeling under obligation to the proprietors, Messrs. Parry & Fitzgerald, for the reason that the proprietors and employees seem emmaned with the spirit to make all patrons feel at home.

RANCHO DEL RIO SALE.

Three. Winters' Stock to be Sold To-day.

The San Francisco Breeder and Sportsman says:

The auction of that portion of the stock of Ranch del Rio which will take place at Sacramento, to-day, is of great importance. More so than the number offered would seem to warrant. Ten in all, and yet it would be difficult to select the same number of as much promise in a far larger offering. We have heard recently that there was likely to be fresh accessions to the ranks of California turfmen. Several men of large means are mentioned who have that object in view, and here is a chance seldom met to obtain an organized racing stable, and with engagements that can scarcely fail to be remunerative. By purchasing all, or the greater part of the youngsters, securing the services of Albert Cooper as trainer, and Courtney for leading jockey, with the outfit necessary, and there the whole business is arranged with a minimum of trouble. Among the four two-year-olds are the "tried" Miss Ford and Adeline. Last week we gave a short sketch of these two fillies, though they are good enough to justify a rehearsal of the eulogy. The catalogue says: "Miss Ford is undoubtedly the greatest filly of her age on the Pacific Coast, being able to concede ten pounds at least to the best of her class," and her races well warrant the assertion. It is unquestionable, then, that so far she has not been called upon to do her best; though the race was so close between her and Idlewee Cotton as only to be gained by a head, it came from her jockey being oblivious to danger on that side after disposing of Safe Ban. Her greatest performance, in our estimation, was her race in the mud on the last day of the Blood Horse meeting. In that she beat Grisette, Voltigeur, Narcosa and Safe Ban, carried 113 pounds and made the seven furlongs in 1:31 1/4, which her rider said could have been reduced. The course was a mass of mud, and the defeat of Grisette on any kind of a track not a light task. She is named in the American Derby, Sheridan and Englewood Stakes at Chicago, and in the California Breeders' Stake, State Fair of 1887.

Adeline is only a trifle inferior to her stable companion. A mile in 1:42 1/4 is a mark which requires plenty of speed and bottom to accomplish, and as Borelli, Argo and Voltigeur were behind her, there was more than the usual test as a token of ability. In addition to her own capacity, she has the further backing of a "full brother," Endure, which has shown to be a real race-horse. When six years the past season and beat such good horses as P. Neo, Minnie Hunt, Bohem and Lancaster. She is engaged in the Sheridan and Englewood Stakes, Chicago. The maiden two-year-olds—Gold Cup and Chuteau—are so rarely bred that it will be singular indeed if they cannot race. Gold Cup is by Enquirer, from Buttercup by Glen Athol, and the second dam Bay Flower, and the third Bay Leaf. So many stars have belonged to this family that a list of their names would look like a page of the racing calendar, and their exploits fill chapters. Chuteau is by Norfolk from Neapolitan by War Dances, her dam Eliza Davis by imported Knight of St. George. This is another celebrated family, a sister to Neapolitan. War Dances is the dam of Kile, and on this Coast Ben Wade, Woodbury, Harwood, Robson and others have sustained its name. Chuteau's engagements are the Winters; Spirit of the Times, Vestal and Fame Stakes; Pacific Coast Blood Horse Association. The yearlings are all so good that it might appear invidious to give preferences. Emperor of Norfolk, Bolero, Colombo, Zuhaka, Corona and Serpolette are the names, and their engagements are so full that there will be plenty of business for them in 1887 and 1888. The engagements of the Emperor of Norfolk are: Hyde Park and Kenwood Stakes, 1887, and American Derby and Sheridan Stakes, 1888, Chicago; Saratoga and Kentucky Stakes, 1887; Travers and Keener Stakes, 1888, Saratoga; California Annual, 1887, and California Derby, 1888, State Agricultural Society; California, Gano and Autumn Stakes, 1887, and Tidal, Pacific Derby, Vestal and Fame Stakes, 1888, Pacific Coast Blood Horse Association, and Serpolette has like engagements. Now we would like to see these colts go into a new stable, or at least half of them, and this would be the most satisfactory arrangement in one respect, though there are other interests which would be better advanced by segregation. The more owners the more starters, and a variety of colors on a racing day has a charm to the spectators and is an additional stimulus to speculation. That bargain will be obtained is one thing as nearly certain as can be foretold. The sale in Kentucky shows that there is no depreciation in the price of thoroughbreds in the East, and such animals as are offered at this sale will be in demand whenever transferred to

that side of the continent.

There is still another reason for our desire to see the dispersal of the Ranch del Rio string be the foundation of others. As a general rule first ventures are what fix the fancy. Should a turf neophyte be successful in his first season, he can stand a good deal of shaking thereafter, and to be successful with this lot only requires proper conditioning and management. As the sale will commence at 1 p. m. there will be time enough to reach Sacramento by leaving San Francisco on the morning train to-day. It will be more satisfactory, however, to go sooner, so as to have an opportunity to study the animals before being placed under the hammer.

THE IRISH POINT.

He Kindly Posts His Traveling Companions.

Tuesday's Enterprise says:

He was coming up from Reno the other morning, in company with three or four friends from the East, who were never in these parts before, and he delighted in pointing out to them the various objects of interest in passing.

"This is the Truckee river we just crossed over. It heads at Lake Tahoe and ends in Pyramid Lake, two of the finest lakes in the known world, and it irrigates the best section on the Pacific Coast, California or Oregon not excepted. Look at these broad alfalfa fields and their wonderful production in the way of hay alone. All they have to do is to cut and harvest the clover and put it into stack, and soon alfalfa hay and Comstock mining shares go hand in hand."

"But how much hay can they turn out to the acre?"

"Oh, well, say seven crops a season. It grows very rapidly. As soon as they mow and stack one crop they commence cutting another till the frosts and snow put a stop to it. Yet twenty-five years ago, when I first came along here, there wasn't a house. It was all sagebrush. Hufferaker and Lake were living in tents. They were the first locators, and each had a few cows and a dozen or two of chickens, and made thousands of dollars selling butter and eggs to the miners of the Comstock. Hufferaker offered me half his ranch if I would stay with him, and I could have bought out Lake for the two-horse team I was driving, but what was the use? I could have taken up miles and miles of just as good land for nothing. It was a mere matter of clearing off the sagebrush and diverting the flowing streams to make the most productive ranches in the world."

"Sharon and Yarrington, two old schoolmates of mine in the East, promoted the town of Reno and built this railroad we are riding on to transport the billion from the Comstock lode, and this railroad is what has made the country. Every rancher along or near the line is a rich man now. Just look at the grand old Sierra Nevada yonder, bounding the west side of the valley. It is one vast range of mineral wealth, whose scattered peaks punching high up into the blue dome of heaven, are always white with snow."

"But don't the snow ever melt off?"

"No, sir; they are the eternal snows crowding the parapets of God, always gleaming white to view from this railroad, same as now, never melting off. But now look yonder; here we come to the famous Steamboat Springs. See the huge columns of hot steam rising through the frosty atmosphere. I have seen them squirt over seventy-five feet high, boiling hot."

"See here now," laughed one of his deeply interested auditors, "what are you trying to give us. These are nothing but bonfires."

"Well, that's so, sure enough. It's some fellows clearing up their land and burning up the sagebrush heaps. Dam it, if I didn't think it was the Springs."

"But there we come to another row of fires," remarked a second auditor.

"Yes, of course; I forgot that now's the time when they clear up the lands and burn the brush."

"But that ain't no brush heap burning; that looks like steam."

"Well, by George; if you ain't right, sure enough."

Just then the train slowed down, and the conductor appropriately sang out "Steamboat!"

"NAVAL ENGAGEMENTS."—On Christmas night the short but very entertaining drama of "Naval Engagements" will be presented at the Nevada Theater for the benefit of the Kindergarten Association, with the following cast of characters:

Admiral Kingston.....R. H. Lindsay
Lieut. Kingston, (R. N.)...Dr. J. Lewis
Short.....T. E. Laycock
Denals.....Benno Barnett
Mrs. Pontifex.....Mrs. S. D. King
Miss Mary Mortimer.....Mrs. A. Wright

After the rendering of the above, which will take about one hour, there will be a social dance. Tickets to entertainment and dance will be one dollar. Reserved seats for sale at Nasby's without extra charge.

Bills against the State must be presented to the Board of Examiners, at the office of the Secretary of State, by 12 o'clock next Monday, December 27.
